DETAILED ACTION

1. This action is responsive to application filed 11/13/2003.
2. The disposition of the claims is as follows: claims 1 - 19 are pending in the application. Claims 1, 4, 13 and 14 are independent claims.

Allowable Subject Matter

3. Claims 1 – 19 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Applicant's independent claims 1, 4, 13 and 14 stands novel over the related prior art. For instance, the related art of Face Detection Using the 1st-Order RCE Classifier by Jeon, Sang Lee, and Kyoung Lee does make use of finding face candidates and orientation using a 1st-Order reduced Coulomb energy classifier, but does not provide for computing a plurality of rotated integral images of said digital image, each said rotated integral image having a different in-plane rotation; defining a plurality of windows within said digital image and corresponding pluralities of windows of said rotated integral images; extracting the values of convolution sums of a predetermined set of feature boxes within each said window, in each of said rotated integral images; reducing dimensionality of said convolution sums from each of said windows, to provide a respective set of reduced sums; applying a probability model to each of said sets of reduced sums to provide a best estimated derotated subimage of each of said windows as similarly claimed in independent claims 1, 4, 13 and 14.

Therefore as claimed by the combined elements of independent claims 1, 4, 13 and 14, the cited references and prior art of record lack separately and in combination the elements of

said claims. Claims 2-3, 5-12 and 15-19 depend from allowable independent claims 1, 4 and 14, respectively, and therefore are also allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
